Crazy Car Wraps...

Car wrapping has become a popular choice among car owners looking to update the look of their car, and businesses that want to promote their products and services using their fleet of cars and trucks. One of the main advantages of car wrapping is that it is completely reversible. If you grow tired of the look or the vinyl becomes faded or damaged, you can easily have it removed. Designs are limitless and you can really stand out in a crowd. Here are just a few crazy/fun designs to make the roadways!

April Showers Bring Hazardous Driving Conditions!

Are you ready for wet roads and
wet windshields? Don't wait -

have your tires and windshield wipers checked
BEFORE the big storm!

Wiper Blades 101...

You may have noticed the newer sleeker wiper
blades that are becoming more popular. These are
called Beam Blades or Bracketless Blades which
lack the frames of a conventional blade. Instead,
spring steel is incorporated into the rubber and as

a result, provide more
uniform wiping pressure
on today's curved
windshields.

Did You Know?

Cars were seen as the "green" alternative of
transportation in the early 20th century
because horses were causing so much
pollution with their poop.

If you want to travel to the moon, it would take
less than 6 months if you drive at 60 mph.

The first car accident occurred in 1891 in Ohio.

The average American spends about 38 hours a
year stuck in traffic.
