Panoramic Views...

Sunroofs have evolved over the years and are now offered in a panoramic version offering a wide opening from the windshield all the way back to the rear window. Not quite the open feeling of a convertible, but a great alternative to beautiful views while taking a scenic drive. If you are interested in this feature, there are some pros and cons to consider before making a purchase.

Pros

- Exposure to natural sunlight and fresh air – bettering the mood of those in the car.
- A less claustrophobic feeling on long drives.
- Less wind noise than regular car windows and less need for air conditioning.

Cons

- Slightly less headroom from the mechanical structure in the roof.
- Interior of the car can become warmer than a car with a regular roof during summer months and condensation can occur in winter months.
- Added weight of the heavy glass to the vehicle – as much as 200 lbs.
- Extra mechanical components requiring maintenance.

- continued -

Happy New Year!
from the Graeves Family

Safety

While the panoramic sunroof offers less structural safety to passengers than a traditional roof, it does offer better safety than a full convertible.

Car Safety Tip of the Month!

Winter Wax...

Summer is not the only time to consider waxing your car.

A fresh coat of wax can help protect your car from road dirt and grime all year long. Make sure you coat your headlights and keep them clean too. Your night-time visibility will be greatly improved!

NOTE: Make sure you check your wax's recommended application temperature range.
