Top Ten Most Stolen Cars...

While car theft has been in decline over the past 2 decades, largely in part to new anti-theft technologies, there has been a slight resurgence attributed to complacent car owners. By leaving doors unlocked and leaving engine keys and fobs inside vehicles, you are inviting car thieves to take your car. According to the latest statistics, here are your top ten most stolen cars in the United States. It is no surprise that Honda finds itself at the top of the list year after year.

5. Toyota Camry: 17,276

Car Care "Tip of the Month"

Stuck in the Mud?

When stuck in mud, don't make the problem worse by damaging

an expensive component. Gently rocking in an attempt to free your car is fine. But if it looks as though you're really stuck, don't keep at it. Throwing your car from forward to reverse repeatedly, as

well as spinning tires at high speeds, can generate lots of heat and spell trouble for transmissions, clutches, and differentials. It may be cheaper in the long run to call the tow truck rather than risk big repair bills down the road. It's a good idea to carry a traction aid in the trunk, such as sand, gravel, or cat litter.

St. Patrick's Day is just around the corner, and it falls on a Sunday this year. Please join in the festivities responsibly and have a safe day!
