## Safety in 2023...

Every year millions of dollars are spent developing new safety technologies which help keep occupants safe in the event of an accident. Feature may include airbags that completely surround passengers or automated detection and avoidance systems.

Here is a short list of the top 10 rated cars for safety according to the Insurance Institute for Highway Safety (IIHS) and the National Highway Traffic Safety Administration (NHTSA).

Showing NHTSA Safety Ratings

**Car Care Tip of the Month!**

It is officially Fall and the leaves are already starting to turn. Those beautiful colors eventually wind up

on the ground and can create hazardous situations for drivers. Wet leaves can make roadways very slippery, especially around sharp turns.

Piles of leaves can attract children and bring them closer to the roadways. Be sure to keep an eye out and plan to slow down when needed to ensure safety for everyone.
