

A monthly publication filled with industry news, maintenance and safety tips, upcoming events, special coupons, and more!

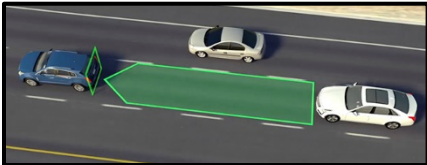

## Best Automotive Technologies for 2021...

Time for another review of the latest and greatest in automotive technologies. Even previous technologies are continuously being enhanced and improved over time and are gaining much attention and presence in standard options.

**Driver Assistance Technologies** continue to expand and improve - including such features as:

- Adaptive Cruise Control – automatically adjusts your cruise speed to maintain safe distances from the vehicle in front of you.

- Lane Departure Warning – alerts you when your car is drifting into another lane.

See page 3 for this month's special deal!

- Lane Keep Assist – automatically adjusts your steering to keep you in a lane.
- Cross Traffic Alert – warns of crossing traffic when backing out of a space.
- Auto-Braking – for traffic ahead and objects when backing up.

Some **Enhanced Mobile Apps** can now lock and unlock cars remotely and can even start your engine through your phone. We are also seeing apps that show tire pressure and fuel levels.

**360 Degree Cameras** offer drivers a full picture of their car's surroundings – especially helpful when parallel parking or backing into tight spaces.

**Video Rearview Mirrors** offer a clear view backward – even when passenger heads and other packed items may obstruct our normal view through a

traditional rearview mirror. *Warning – you will lose sight of your children in the back seat!*

**Teenage Driver Technologies** are now offering parents notifications on seatbelt usage and excessive speeds, as well as the ability to limit radio volumes and content. Teen driver report cards are also offered providing parents data on things like ABS usage and collision alerts.
